## **DETAILED ACTION**

### ***I. Preliminary Matters:***

(a) Amendment filed 8/1/2003 has been received and entered into the file.

-Claim 1 has been amended.

-Claims 1-14 are pending, of which claims 2-14 are withdrawn from consideration as being drawn to non-elected inventions.

### ***II. Remarks:***

(a) Issues under 35 USC 112, second paragraph: Amendment to claim 1 has overcome the rejection as to the term "derivative". However, the argument with regard to the term "All" has not been found to be persuasive as the term "All" is not conventionally employed in chemistry to mean an allylic moiety ( $-\text{CH}=\text{CH}-\text{CH}_2-$ ), rather the conventionally employed short hand for this moiety is -Allyl-. Therefore, the rejection of this term is maintained.

### ***III. Maintained Rejections:***

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

The term "-All" in claim 1 is a relative term, which renders the claim indefinite. The term "-All" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably appraised of the scope of the invention.

Art Unit: 1626

***IV. New Rejections:***

***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 1 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The inclusion of the terms "alkenyl or alkynyl" for the recitations of R1-R3 do not have descriptive support in the specification or the originally filed claims. A mere inclusion of a single moiety such as -CH-CH-CH<sub>2</sub>- in some examples does NOT provide adequate support for the genus alkenyl. The reason the terms alkyl and aryl do not add new matter into the claims is because those terms are specifically recited in the specification on page 9, lines 5-10. The terms "alkenyl or alkynyl" on the other hand are not similarly supported. Therefore, the amendments add new matter to the claims.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 recites the limitation "alkenyl or alkynyl" for their recitations of the R1-R3 moieties in claim 1. There is insufficient antecedent basis for this limitation in the specification or originally filed claims.

***V. Finality:***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
